DETAILED ACTION

Applicant's amendments filed October 17, 2005 have been entered.

The outstanding rejection under 35 USC 112, first paragraph with regard to the secondary agents is withdrawn in view of the amendments canceling all of the secondary agents except PDE 5 inhibitors.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 7, 9, 13, 33-35, and 37-38 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The instant claims are drawn to the "prevention" of male erectile dysfunction (hereinafter MED). The instant specification does not provide information for one of skilled in the art to "prevent" MED in patients that are not suffered from it. The term "prevent" construed as an absolute prevention for MED. It is known in the art that the impotence has numerous etiologies such as alcoholism, neurogenic disorders, intrapsychic factors including abnormal fear of vagina, sexual guilt, depression, and fear of intimacy (See Merck Manual, 16th ed., 1992, page 1575 –

Art Unit: 1617

1576). The instant specification does not provide sufficient guidance as to how to keep the etiologies from being manifested into MED.

Examiner notes that Merck Manual is reference of record.

Response to Arguments

Applicant's arguments filed October 17, 2005 averring the amendments filed October 17, 2005 would obviate the rejection have been fully considered but they are not persuasive. Examiner notes that even adding the limitation human or animals in need thereof, the claims would not meet the requirements set forth in 35 USC 112, first paragraph. There is no probative evidence disclosed in the instant specification demonstrating the absolute prevention MED from various etiologies. Therefore, the claims are seen to be properly rejected under 35 USC 112, first paragraph.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7, 9, 13, 33-35, and 37-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "human or animals in need thereof" recited in claim 13 renders the claim indefinite since it is not clear what patients would be considered and encompassed by the term "human or animals in need thereof". Accordingly, the one of ordinary skill in the art will not be able to ascertain the metes and bounds of the claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
